1.3 The Copular Root: -Č-

The scope of this root's usage is narrow. It is used only in contexts requiring ontological or epistemic equivalence/identity. e.g., "I am your father." It is **not to be used** in the following circumstances:

- when "be" means "be named/called", e.g., "*My dog is [named/called] Toto*." (Use stem meaning "be named; be called; have an appellation")
- when "be" initiates an adjectival phrase, e.g., "*Rain is beneficial*." (Use adjectival case or an appropriate verbal stem, e.g., "to (be of) benefit")
- when "be" indicates a spatio-temporal relation, e.g., "*The box is on the table*" (Use stem signifying the specific relation, e.g., "be on the top surface of")
- when "be" means "occur / happen / take place", e.g., "*Wednesday is the best day for shopping*." (Use stem meaning "occur, take place, happen")

To name a particular grammatical sub-category (e.g., comitative case), use the appropriate root/stem above in conjunction with one of the following rules:

- To name a noun case or verbal format, use the stem -- above in conjunction with the specialized C_S-root (see Sec. 4.2 of the Design Document) of the Type-2 case-accessor affix for the case in question. For example, the COMITATIVE case would be named ***warmpa ëizyi've*** *'grammatical case/format associated with that which accompanies'*.
- For categories other than noun cases or verbal formats, use the appropriate root/stem from the list above in conjunction with one of the following stems as appropriate, where that stem in turn manifests (i.e., is declined into) the particular morphological category: -**PS**- Stem 1: 'to happen/occur'; -**PS**- Stem 2: 'to be/manifest'. For example, the Ithkuil term for the subjunctive mood would be ***warmpļa hre psi've*** *'grammatical mood associated with what may happen'*.
